

Governor's Executive Order 2020-70

"Stay Home, Stay Safe"

What can I do??

1

Physical activity outside

Stay six feet from anyone not in your household. Activity includes walking, hiking, running, cycling, kayaking, canoeing, and similar activities.

2

Go to work, if critical or resumed activity

"Critical infrastructure" workers include health care/public health, law enforcement, water and waste water, childcare workers for critical workers, those providing food and shelter, and others. Many also are working remotely.

You do *not* need any documents with you to travel to work.

3

Pick up medicine

You can go to the pharmacy for medications, or seek emergency medical or dental care. For regular doctor visits, check with your doctor; many are providing visits by phone and video call.

4

Pick up groceries, get gas

Please do these errands alone, or with as few people as possible, and complete them quickly. You can get groceries, gas in your car, medical supplies, and take-out food.

*If you can medically tolerate it, please wear a mask over your nose and mouth in an enclosed public space. (There is no penalty for not doing so.)

5

Care for others

You may leave to care for a family member or their pet in another household, or for children, dependents, the elderly, or a person with a disability.

You can attend a funeral with 10 people or less.

6

A few other things...

- Go to the laundromat.
- Attend a church service in the parking lot, in your vehicle.
- Follow custody agreements to drop off children to another parent/guardian.
- View a real estate listing, by appointment.
- Pick up non-necessary supplies curbside from a store that is otherwise closed to the public.
- Purchase items like child car seats.
